

qtg::QSlider

```
classDiagram
    class qtg_QSlider["qtg::QSlider"]
    class FloatSlider["aml_demos.joint_sliders.FloatSlider"]
    FloatSlider --|> qtg_QSlider
```

The diagram shows a class hierarchy. At the top is a class box for 'qtg::QSlider' with three empty compartments. Below it is a class box for 'aml_demos.joint_sliders.FloatSlider' with three compartments. The bottom compartment of the FloatSlider box contains a list of methods. A blue arrow with an open triangle head points from the FloatSlider box up to the qtg::QSlider box, indicating inheritance.

aml_demos.joint_sliders.
